Prior to the adoption of the plan or any part, amendment or addition thereto, the commission shall hold a public hearing thereon, the time and place of which shall be published in a newspaper of general circulation in the county at least thirty (30) days prior to the meeting in which the adoption is to be first

considered.

SECTION 4. Tennessee Code Annotated, Section 13-3-304, is amended by adding the following at the end of the section:

Once the planning commission of the region or the municipality has adopted and certified the general regional plan, the planning commission's transmittal of the certification to the legislative body may simultaneously include a resolution by the planning commission requesting the legislative body's consideration and adoption of the general regional plan. The county legislative body by resolution or the municipal legislative body by ordinance may adopt the general regional plan or in the case of the municipality their element of the plan as certified by the planning commission. Prior to the adoption of the general regional plan or amendment thereof by a legislative body, the legislative body shall hold a public hearing thereon, the time and place of which shall be published in a newspaper of general circulation in the county at least thirty (30) days prior to the meeting in which the adoption or amendment is to be first considered. If the legislative body adopts the general regional plan in the form of an ordinance by the municipality or a resolution by the county, then any land use decisions thereafter made by the legislative body or planning commission must be consistent with the general regional plan.

, all according to the 2000 federal census or any subsequent federal census, if the planning commission initiates and votes to adopt an amendment to the general plan, the amendment shall be operative without further action of the legislative body. The planning commission shall transmit its action to the legislative body.

(2) The general regional plan may be amended upon the initiative of the legislative body. Such initiative must be transmitted, in writing, to the planning commission for its review, consideration and vote. The planning commission must take action on the amendment within sixty-one (61) days of the submittal of the amendment to the planning commission by the legislative body.

(A) Except as provided in subdivision (B), if the planning commission votes to approve or not approve the amendment or transmits it back to the legislative body with no recommendation, the legislative body must then approve such amendment by a

majority vote, in order for the amendment to be operative.

The planning commission shall transmit its action back to the legislative body and provide a written explanation for its reasons in not approving the amendment or for not making a recommendation on the initiative transmitted to the commission by the legislative body.
